DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/10/06 has been entered.

Allowable Subject Matter

2. Claims 13, 15-19 and 21-28 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record discloses a piezoelectric actuator comprising a substrate and an epitaxial ferroelectric film provided on the substrate wherein the epitaxial ferroelectric film satisfies the relation $z/z_0 > 1.003$. However, the references of the Prior Art of Record fail to teach or suggest either alone or in obvious combination the limitations as set forth in claim 13, and specifically comprising the limitation of $0.997 < x/x_0 < 1.003$, and the epitaxial ferroelectric film including lead and oxygen as constituent atoms. Claims 15-19 and 21-28 are allowed as being dependent from claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
